

HM/C Cleaning Hydraulic Oil

【Performance Features】

- Transcendent extreme pressure anti wear property, it slows down the worn-rate of equipments, and effectively extends the operating life of pumps and systems.
- Outstanding thermal & oxidation stabilities, slow down the rate of decay, extend oil-draining intervals.
- Good anti-foam properties and air-release characters, to ensure the static pressure energy can be transmitted through systems sensitively, accurately and smoothly.
- Favorable applicability to all sorts of general sealing material.
- Special cleaning property, prohibit containing over-limitation solids and other resolvable junks, ensure the smooth running of hydraulic devices.
- Meet the specification requirements of PetroChina Q/SY RH2086-2003, USA Vickers I-286-S, Cincinnati Milacron P68/P70/P69, German DIN 51524 (II), French AFNOR NF E48-603 (HM)

【Product Series】

HM/C32, 46, 68, 100 (cleaning hydraulic oil, meet the requirement of NAS 7) HM/C32H, 46H, 68H, 100H (super-clean hydraulic oil, meet the requirement of NAS 5)
